## SAFETY DATA SHEET

3225	MANDARIN YELLOW MULTI-COLOUR
------	------------------------------

<b>1. Identification of substance/preparation and of the company undertaking</b>	
Trade Name:	Mandarin Yellow Multi-colour
Chemical Name:	-

<b>2. Composition /information on ingredients</b>		
CAS No	Common Name	
102184-95-2	Inclusion pigment	
65997-18-4	Frits, chemicals	
14808-60-7	Quartz	
Hazardous ingredients (theoretically calculated)		
Weight %	CAS No	Common Name
		Symbol
5.0-10.0	7439-92-1	lead in compounds and frits
		T
15.0-40.0	14808-60-7	Quartz
60.0-100.0	102184-95-2	Inclusion pigment with

<b>3. Hazards Identification</b>
May cause harm to unborn child.
Possible risk of impaired fertility.
Also harmful by inhalation and if swallowed.
Danger of cumulative effects.

<b>4. First Aid Measures</b>	
General remarks:	Bring affected persons out of danger area. Keep warm and in stable position. Place person on side in stable position if unconscious. Keep respiratory track clear. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
Inhalation:	Take affected persons out into the fresh air. In case of discomfort consult doctor immediately.
Skin contact:	Upon skin contact, wash with water.
Eye contact:	Rinse thoroughly immediately with plenty of water for at least 5 minutes keeping eyelid open. Consult an ophthalmologist if the irritation persists.
Ingestion:	Have patient drink plenty of water in small sips. Make affected person vomit but only if he/ she is fully conscious.
Instructions for physician:	
Inhalation:	After inhaling relevant quantities lung lavage. Control of load by measuring the urine output of the metal. If necessary, treat with complexing agents.
Contact with skin:	If necessary, symptomatic treatment.
Contact with eyes:	If necessary, symptomatic treatment.
Swallowing:	Immediate measures (also by laymen) – Administer a drinking glass of saturated sodium sulphate solution.
Physician:	Remove poisonous substances from the gastro- intestinal tract. Administer sodium sulphate solution if this has not yet been done: Control of load by measuring the urine output of the metals. If necessary, treat with complexing agents.

<b>5. Fire Fighting Hazards</b>	
Suitable extinguishing media:	Usual measures for chemical fires. Extinguishing media which must not be used for safety reasons
Special exposure hazards arising from the substances or preparation itself, combustion products, resulting gases:	Usual measures for chemical fires.
Special protective equipment for Fire fighters:	Usual measures for chemical fires

<b>6. Accidental Release Measure</b>	
Personal Precautions:	Keep persons at a distance and stay on the weather side. Wear personal protective equipment. (see section 8)
Environmental precautions:	Dispose of waste in accordance with the legal regulations issued by the appropriate local and national authorities.(see section 13) Prevent penetration into soil, stretches of water and drainage systems.
Methods of cleaning up:	Absorb mechanically and collect in a suitable container.
Further information:	Avoid formation of dust. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

7. Handling & Storage	
Handling:	<p>The product should only be handled by trained personnel. Avoid formation of dust; suction of objects if necessary. The product contains substances which are damaging to the foetus. Comply with employment limitations for youths pregnant women and nursing mothers</p> <p>The product contains substances, which may be dangerous to reproduction. (category3) Comply with employment limitations for youths pregnant women and nursing mothers. Avoid exposure- obtain special instructions before use</p>
Specific information referring to lead:	<p>The product should only be handled by trained personnel. Note employment restrictions also for women of child bearing age.</p>
Storage:	<p>Keep container dry and tightly sealed- even empties. Store under lock and key or only allow access to technical experts or persons under their authority.</p> <p>Product is slightly water- pollutive. Observe the national and local regulations concerning handling and storage</p>

8. Exposure Control/Personal Protection		
Additional instructions for technical installation		
		When processing the product, the air in the workplace should be regularly monitored and employees exposed to the product should be given a regular medical check- up.
Ingredients with threshold limit values:		
Specific information referring to lead:		In accordance with current information a risk of embryonic damage is likely in pregnant women. Damage cannot be excluded even when the special limit values of TLV tolerance value are observed.
Values of maximum admissible concentration (MAK):		
ml/m <sup>3</sup>	0.1000	mg/m <sup>3</sup> referring to lead in compounds and frits (G).
ml/m <sup>3</sup>	0.1500	mg/m <sup>3</sup> referring to quartz (F).
ml/m <sup>3</sup>	5.0000	mg/ m <sup>3</sup> referring to zirconium (compounds) (G).
Values of maximum admissible concentration (TRK):		
ml/m <sup>3</sup>	0.0150	mg/m <sup>3</sup> referring to cadmium (compounds) (G).
General protection:	Wash face/ hands before break and end of work. Avoid exposure – obtain special instructions before use.	
Respiratory protection:	If maximum admissible concentration value at the workplace is exceeded, apply ref. to BS 2091 Dust: B.	
Eye protection:	The usual precautionary measures for dealing with chemicals should be observed.	
Skin protection:	No particular protective equipment required, if no further advice follows.	
Hand protection:	No particular protective equipment required, if no further advice follows.	

9. Physical & Chemical Properties	
Physical State:	Solid
Colour:	Yellow
Odour	Not applicable

10. Stability & Reactivity	
Conditions to avoid:	No dangerous reactions are known to occur with correct handling and storage.
Materials to avoid:	(If applicable information referring to individual components of the products is given below).
Hazardous decomposition products:	(If applicable information referring to individual components of the products is given below).

<b>11. Toxicological Information</b>	
Immediate effects, data for substance (or effects of certain components in preparation):	Specific information for this product is not available.
Chronic effects from short and long- term exposure:	Specific information for this product is not available (if applicable, information for components is given below). May cause harm to unborn child. Possible risk of impaired fertility. Danger of cumulative effects.
Specific information referring to lead:	Classification as embryotoxic (teratogenic) R (E), category I: Substance which is not known to be embryotoxic (adverse to development) in humans.
Human:	To date handling this product has not been known to cause any detrimental effects.

<b>12. Ecological Information</b>	
Data for elimination (persistence and degradability).	Mechanically separable in water treatment plants.
Behaviour in environmental compartments.	Product is water- pollutive.
Ecological effects:	Product not investigated.

<b>13. Disposal Considerations</b>	
Look for community provisions relating to waste. National or regional provisions may be in force. Suggestion for a waste code number and waste description for uncontaminated waste for users in the ceramics industry	
EWC- No.	060405
Waste, containing other heavy metals. (Dangerous waste according to EC guideline 94/904/EC).	

<b>14. Transport Information</b>	
Dangerous goods regulations	RID/ADR/IMDG- Code/ ICAO- TI: No
Land transport ADR/ RID (Interstate/ intrastate)	Not restricted.
Inland navigation ADN	For inland navigation consultation necessary.
Sea transport IMDG	Not restricted
Air transport ICAO- TI and IATA- DGR	Not restricted
Transport/further instructions	Water endangering class (Germany) 2 RQ (Reportable Quantity - USA

<b>15. Regulatory Information</b>		
Information on the label according to the Directives of the EEC.		
Symbol(s) and indication(s) of danger:	T Toxic	
Hazardous ingredient(s) for labelling, containing:	Lead in compounds and frits.	
R Phrases	R20/22	Also harmful by inhalation and if swallowed.
	R33	Danger of cumulative effects.
	R61	May cause harm to unborn child.
	R62	Possible risk of impaired fertility.
S Phrases	S45	In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
		Avoid exposure- obtain special instructions before use.
Any other national measures that may be relevant (ref. Annex II Directive 88/379/EEC)		
The safety data sheet is produced considering new directives of the EEC. Missing or differing labelling may occur during the transitional stage until all countries take over these regulations in their national jurisdiction.		
Lead- containing preparation:	"Containing lead. Do not use for painting articles which can be chewed or sucked by children."	
Water pollution class 2. For products containing substances which are damaging to foetus. Observe national legislation for employment restrictions.		
For products containing substances which are potentially dangerous to reproduction observe national legislation for employment restrictions		
<b>16. Other Information</b>		
The data presented here corresponds to the present state of our knowledge and experience and are intended to describe our product with respect to possible safety demands. We imply with this however no guarantee of properties or description of qualities.
