## PRODUCT INFORMATION

### 7714 – REVERSIBLE TURNING LATHE

---

The Reversible Turning Lathe is built to give long trouble free life with little maintenance required. The machine's construction consists of a .25" steel base. At each end there are two aluminium plates in which the bearings are mounted. The shaft is 1.375" diameter with a 1" Whitworth thread. The motor is a .5hp AC, which transfers its drive to the shaft via a V belt and pulley. The speed is controlled by a AC electronic speed controller, which has a reversing facility and the speed is varied by a hand operated knob. A foot operation is available as an optional extra. The machine is totally enclosed for protection and comes complete with an adjustable tool rest and its own base to which the tool rest is fixed.

#### Technical Data:

##### Overall Dimensions:

Height: 410mm  
Width: 470mm  
Length: 1220mm  
Weight: 90kg approx  
Motor: .5hp AC  
Speed Control: Variable electronic  
Speed Range: 0-380rpm  
Bearings: Sealed for life, self-aligning

#### Optional extras:

Foot operated controller  
Tapered steel spindles: 150mm, 230mm, 300mm and 380mm long  
Aluminium face plates: 150mm and 200mm  
Aluminium Cup Head: 250mm diameter
