

PRODUCT INFORMATION

7120 - WEALDEN THROWING WHEEL

The Wealden Throwing Wheel is designed and constructed to give long trouble free service for the professional and amateur potter. The Wealden is constructed using a polished wooden cabinet complete with a shelf and a two position adjustable upholstered seat, the wheel incorporates a large moulded plastic bowl. The drive mechanism is by an extremely smooth drive which offers low noise and vibration characteristics whilst giving excellent torque response so enabling large amounts of clay to be thrown. Fully reversible wheelhead.

Options extras include Easy-lift Wheelhead and batts.
