PRODUCT INFORMATION

6800 – BASIC SPRAY GUN

Simple but effective spray for *modelling*, *stencilling*, *texturing* and *ceramics* for spraying medium to heavy viscosity fluids, and simple enough for children ages 8 and up. Sprays 18mm - 50mm by adjusting the tip.

Supplied in a blister pack. The pack includes 22ml jar, vinyl hose and regulator. It can be used from a propellant can in conjunction with the regulator, or from a compressor (.25" adaptor required – optional extra) or a deflating car tyre (valve adaptor required – optional extra).

The Model 250 single action, external mix, bottom feed spray gun is great for any job requiring a simple, yet effective spray. The Model 250 is basic enough for children, (ages 8 and up) to use with minimal adult supervision, yet effective enough for adult use. This gun is perfect for jobs requiring large overall coverage with medium to heavy viscosity materials. Modelling, school projects, home improvement projects, workshop jobs, ceramic under glazing, fogging, texturing and stencilling can all be handled by the Model 250. The spray pattern can be adjusted from $\frac{3}{4}$ " to 2" simply by turning the paint tip. The Model 250 uses $\frac{3}{4}$ oz. or 2 oz. capacity jars.
