PRODUCT INFORMATION

6996/1 – W681 RECOVERY TRAP – 2.3 litre

Key Benefits

- Adapts easily to existing plumbing, wherever there is a "U" bend.
- Enclosed bottle means less odours emitted from trap
- Strong vulcathene bottle means the trap is resistant to boiling water and robust use.
Replacing the bottles takes minutes, from start to finish, with no tools, minimal risk of spillage,

Easily emptied, by unscrewing the base from the trap, this large capacity anti-siphonic dilution recovery trap has a 76mm liquid seal and holds 2.3 litres. The 1.5" BSP inlet includes a loose nut coupling for connection to a waste outlet or drip cup tail. The trap is also supplied with a 38mm inlet and outlet adaptor for convenience installation to a 38mm standard waste pipe.

Dimensions:

- Depth: 400mm
- Height: 325mm
- Weight: 480g

The W681 Recovery Trap is an innovative, inexpensive solution to preventing clay and glaze materials blocking waste pipes. The system easily fits most standard sink cabinet areas and is easily maintained in minutes. Recommended for light to medium use.

The W681 Trap is easily installed. The trap is connected below the sink and collects solids in a bottle. Bottle exchange is rapid and done without the need of tools.

The W681 Recovery Trap comes complete with:

- 1 x W681 Trap Head
- 1 x 2.3litre Bottle

An adaptor is required to reduce the outlet fitting to a standard 38mm waste pipe.
